

### Labeling Map 1.5 Dealing with Distances: Map Scale

Use the map on page 18 to help you complete the activities below on the map you taped into your ISN.

1. Find the distance between Washington D.C., and New Carrollton. Draw a line between the two places, and write the distance on the line.
2. Find the distance between the Washington Monument and the Smithsonian Institute. Draw a line between the two places, and write the distance on the line.
3. Find the distance between Potomac and College Park. Draw a line between the two places, and write the distance on the line.
4. Find the distance between the Washington Convention Center and the National Portrait Gallery. Draw a line between the two places, and write the distance on the line.
5. What will you find approximately 3 miles north of Falls Church? Draw a line between the two places, and write the distance on the line.
6. What will you find approximately 0.75 mile west of the National Portrait Gallery? Draw a line between the two places, and write the distance on the line.
7. What will you find approximately 10 miles east of Alexandria? Draw a line between the two places, and write the distance on the line.
8. What will you find approximately 1.25 miles southeast of the National Aquarium? Draw a line between the two places, and write the distance on the line.
9. Which map will help you find your friend's apartment on New York Avenue? Write "find an apartment" near the map you would use.
10. Which map will help you decide if you should walk or take a taxi to Washington D.C., from Arlington? Write "decide to walk or take a taxi" near the map you would use.
